Clark features a exceptional Parts Supply team. The items warehouses are conveniently situated in Changwon, South Korea and Louisville, Kentucky to guarantee exceptional service to both their customers and their sellers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing companies. Motivated to provide the highest level of value and service to our customers, Clark remains on the leading edge when it comes to enhancing output and benefiting performance.

Worldwide, Clark has one of the most impressive dealer support networks. With over 550 locations worldwide, supplier representation in over 80 nations and 230 locations in North America, their high level of dedication to their customers predominates the materials handling industry.

Clark proudly remains an innovative leader of the material handling industry, revolutionizing safety features such as the operator restraint system. This exceptional dedication to safety is now a standard feature on every forklift.

Clark has a uncompromising goal to have the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be globally certified with quality standard ISO 9001 in all of its manufacturing facilities. Furthermore, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be ready for any number of environmental limitations, thus placing them in a prevailing industry position.

Clark has preferred the very economical and advantageous structure of "Lean Production" for its assembly facilities and application of resources. This structure was established to acknowledge the most effective approaches of production plant management and ensuring maximum proficiency. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers join together to upgrade the effectiveness and brilliance of their merchandise while minimizing costs. The new value engineering program combines modern product growth and delivers improved consumer support and service within the industry.
