

Meritor Part

Meritor Part - The Meritor Company is a premier international dealer built upon 100 years of tradition of service and quality. Meritor specializes in integrated systems together with various modules and parts to the original machine manufacturers and aftermarket equipment within the industrial and transportation trades.

Meritor prides itself in the company's unique energy and thinks that this energy contributes to their competitive advantage in the worldwide operations. The business values their customers and would like to ensure their success while anticipating their different needs. Meritor begins with a philosophy that values diversity of individuals and their broad thought processes. Operating in 19 countries and hiring over 11,200 individuals, Meritor encourages collaboration and innovation among a team of knowledgeable professionals.

Meritor strongly believes in only hiring future focused individuals. These top-caliber workers could rapidly get used to to changing surroundings and freely exhibit the level of commitment and performance required to be able to obtain results for the competitive market environment. The company empowers their teams to make sound business decisions to be able to improve the overall success of the company. In return, Meritor offers all of their staff different chances for professional and personal growth.

Their Advanced Engineering team is at the forefront of components and system engineering that comprise axles, drivelines, suspension and braking systems meant for heavy duty and medium trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is developing. They opened a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives which represent the entire Asia Pacific region. This particular team is also responsible for supporting the requirements of all their global engineering employees.

The Quality team at Meritor is a customer-focused and dynamic group who is dedicated to ensuring optimum progress at their aftermarket distribution facilities and production plant which are situated on 5 continents and in 19 countries.

The supplier development network is specifically located in order to support new business growth. Regional teams are supported by international quality systems, centralized specialties and initiatives in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a fact-based, data-driven approach to decision making within every aspect of the business. The DFSS or otherwise referred to as Design for Six Sigma ensures product reliability in every region. The team is likewise comprised of transactional Green Belts who utilize Six Sigma tools to business techniques and apply lean techniques.
